

Ideation Phase

Empathize & Discover

Date	30 June 2026
Team ID	
Project Name	AI POWERED CUSTOMER TICKET SYSTEM
Maximum Marks	4 Marks

Target Users

- Support Agents
- Support Managers
- System Administrators
- Customers

Empathy Analysis

Aspect	Description
Think & Feel	Need to resolve customer issues quickly, ensure SLA compliance, and provide accurate, professional support responses.
Hear	Customer complaints, support requests, management expectations, and feedback on service quality.
See	Multiple customer cases, support dashboards, AI-generated reply suggestions, and case status updates.
Say & Do	Create and update cases, review AI-suggested replies, communicate with customers, monitor case progress, and generate reports.
Pain	Manual case handling, delayed responses, inconsistent prioritization, missed SLA deadlines, and difficulty tracking support performance.
Gain	Automated case classification, AI-assisted replies, centralized customer support management, improved productivity, faster issue resolution, and real-time reporting.
