Customer Journey Map

 Customer Journey Map – AI-Powered Customer Support Ticketing System					
	 Stage 1 Login & Access System	 Stage 2 Create Case & AI Classification	 Stage 3 AI Suggested Reply & Issue Resolution	 Stage 4 Reports, Dashboards & Performance Monitoring	
 Actions (What does the customer/agent do?):	- Login/Register - Access AI-Powered CST System - Navigate to Case dashboard	- Create Customer Case - System auto-classifies case - Assigns priority & SLA	- Review AI-generated suggested reply - Edit/approve reply - Resolve customer issue	- View reports and dashboards - Monitor support performance - Analyze SLA compliance	
 Touchpoint (What part of the service do they interact with?):	- Login Page - Salesforce Lightning Interface - Home Dashboard	- Case Creation Form - AI Classification Engine - SLA Policy Engine	- Prompt Builder - Agentforce AI Reply Generator - Case Detail Page	- Reports Module - Dashboard Panel - Performance Analytics	
 Customer/Agent Thought (What are they thinking?):	 Can I access the system easily? Is my login secure?	 Will my case be classified correctly? How is priority decided?	 Is this AI reply accurate? Can I trust and use this suggestion?	 Are we meeting our SLA targets? How is the team performing?	
 Feeling (What is the customer/agent feeling?):	 Curious, Hopeful	 Slightly Concerned, Attentive	 Confident, Relieved	 Informed, In Control	
 Process Ownership (Who is in the lead?):	- Authentication Module - User Interface - System Administrator	- Case Management Module - AI Classification Engine - SLA Automation	- Agentforce Module - Prompt Builder - Support Agent	- Reports & Dashboard Module - Support Manager	
 Opportunities (How can we improve this stage?):	- Simplify login process - Improve user interface	- Improve classification accuracy - Reduce case creation time	- Increase AI reply accuracy - Faster response generation	- Enhance real-time dashboard updates - Add predictive analytics	

Phase of Journey

	Stage 1	Stage 2	Stage 3
Actions What does the customer/agent do?	- Login/Register - Access AI-Powered CST System - Navigate to Case Dashboard	- Create Customer Case - AI classifies case automatically - Priority and SLA assigned	- Review AI-generated suggested reply - Resolve customer issue - View reports and monitor performance
Touchpoint What part of the service do they interact with?	- Login Page - Salesforce Lightning App - Home Dashboard	- Case Creation Form - AI Case Classification Engine - SLA Policy Engine	- Prompt Builder / Agentforce - Case Detail Page - Reports & Dashboards Module
Customer Thought What is the customer/agent thinking?	- Can I access the system easily? - Is my login secure? - Will I find everything I need here?	- Will my case be classified correctly? - How is priority decided? - Will my issue be handled on time?	- Is this AI reply accurate? - Is my issue resolved properly? - Are we meeting our SLA targets?
Customer Feeling What is the customer/agent feeling?	- Curious - Hopeful - Interested	- Focused - Slightly Concerned - Attentive	- Confident - Relieved - Satisfied (if resolved) / Alert (if delayed)

Journey stages:

- Login
- Access AI-Powered CST System
- Create Customer Case
- AI Classifies Case
- Generate Suggested Reply
- Resolve Customer Issue
- View Reports & Dashboards
- Monitor Support Performance
