

Project Design Phase-II

Data Flow Diagram & User Stories

Date	30 June 2026
Team ID	
Project Name	AI Powered Customer Support System
Maximum Marks	4 Marks

Data Flow Diagrams:

Customer

Salesforce Lightning App

Account → Contact → Case

↓ **Validation Rules**

Record-Triggered Flows

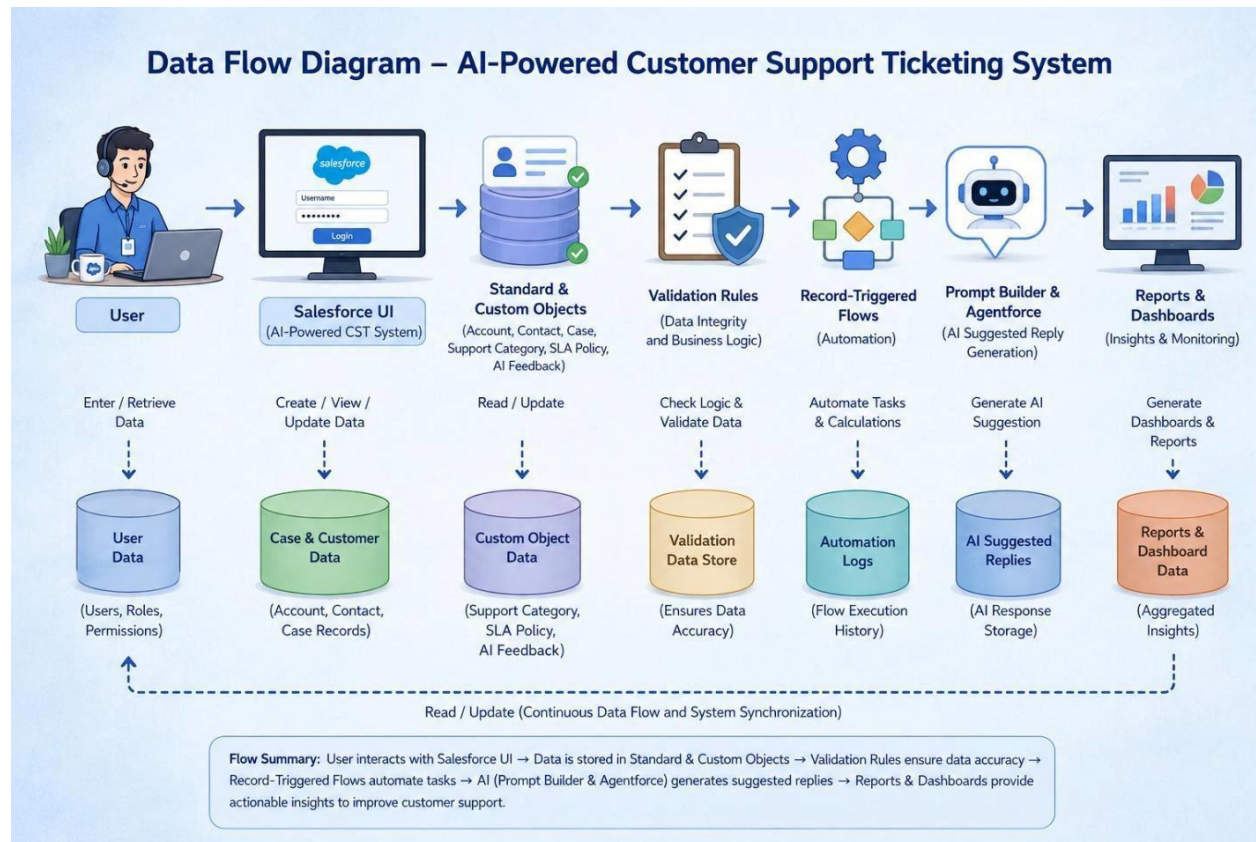

Prompt Builder & Agentforce

AI Suggested Reply

Reports & Dashboards

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer	Registration	USN-1	As a customer, I can register for the application by entering my email, password, and confirming my password.	I can access my account/dashboard	High	Sprint-1

		USN-2	As a customer, I will receive a confirmation email once I have registered for the application.	I can receive confirmation email & click confirm	High	Sprint-1
	Login	USN-3	As a customer, I can log into the application by entering email & password.	I can log in and access the customer dashboard	High	Sprint-1
	Case Creation	USN-4	As a customer, I can create a support case by describing my issue.	I can submit a case and receive a case number	High	Sprint-1
	Case Tracking	USN-5	As a customer, I can view the status of my submitted cases.	I can see case status (New, In Progress, Resolved)	Medium	Sprint-2
	Notifications	USN-6	As a customer, I will receive email notifications when my case status changes.	I receive email updates on case progress	Medium	Sprint-2
Support Agent	Login	USN-7	As a support agent, I can log into Salesforce using my credentials.	I can access the agent dashboard	High	Sprint-1
	Case Management	USN-8	As a support agent, I can view a list of assigned customer cases.	I can see all cases assigned to me with status and priority	High	Sprint-1
	Case Classification	USN-9	As a support agent, the system automatically classifies and prioritizes new cases.	Cases are auto-assigned a category, priority, and SLA due date	High	Sprint-2
	AI Suggested Reply	USN-10	As a support agent, I can view an AI-generated suggested reply for a case.	AI reply is displayed on the case detail page using Prompt Builder & Agentforce	High	Sprint-3
	Case Resolution	USN-11	As a support agent, I can edit and send the AI suggested reply, then update the case status.	Case status changes to Resolved and reply is sent to customer	High	Sprint-3
	SLA Tracking	USN-12	As a support agent, I can view SLA due dates and receive alerts for cases nearing SLA breach.	SLA countdown/alert is visible on case record	Medium	Sprint-3
Support Manager	Dashboard	USN-13	As a support manager, I can view a dashboard showing case volume, status, and agent performance.	Dashboard displays real-time case metrics	High	Sprint-3
	Reports	USN-14	As a support manager, I can generate reports on SLA compliance and case resolution time.	Reports can be filtered by date, agent, and category	Medium	Sprint-4

	Case Reassignment	USN-15	As a support manager, I can reassign a case to a different support agent.	Case ownership updates and agent is notified	Medium	Sprint-3
	Monitoring	USN-16	As a support manager, I can monitor overall support operations through centralized dashboards.	Manager can view all open, escalated, and resolved cases	High	Sprint-4
Administrator	User Management	USN-17	As an administrator, I can create and manage user profiles, roles, and permission sets.	Users are assigned correct role-based access	High	Sprint-1
	Security Configuration	USN-18	As an administrator, I can configure object-level and field-level security.	Access restrictions are enforced per role (Agent, Manager, Customer)	High	Sprint-2
	SLA Policy Setup	USN-19	As an administrator, I can define and manage SLA policies and support categories.	SLA rules are applied automatically to new cases	High	Sprint-2
	Flow Configuration	USN-20	As an administrator, I can configure record-triggered flows for automated case handling.	Flows execute automatically on case creation/update	Medium	Sprint-3
	AI Configuration	USN-21	As an administrator, I can configure Prompt Builder and Agentforce settings for AI reply generation.	AI suggested replies generate correctly based on case data	High	Sprint-3
